The Fall Aesthetic Reset

Fall is the season of the refresh.

As summer winds down and we head into a new season, October is the perfect time to take a fresh look at your skin, your body goals, and the treatments that can help you feel like your best self.

At Sound Plastic Surgery, we believe aesthetic treatments should enhance what already makes you *you* — not change who you are.

This season, we're focusing on **natural results, healthy skin, and personalized treatment plans.**

Thinking About Surgery?

Considering a change but not sure where to start?

October is a great time to schedule a consultation and start talking through your options. Whether you're considering a facial procedure, breast surgery, body contouring, or hair restoration, a consultation gives you the opportunity to discuss your goals, ask questions, and create a personalized plan.

October → Consultation

Fall/Winter → Plan & Schedule

Recovery → Complete

Summer → Enjoy your results

Thinking about surgery this fall or winter? Start the conversation now.

10% OFF FUE Hair Transplants

October–December 2026

Thinking about restoring thinning or receding hair? Fall can be a great time to begin your hair restoration journey.

For a limited time, **receive 10% off the procedure total for all FUE hair transplant performed this fall** at Sound Plastic Surgery.

FUE (Follicular Unit Extraction) is a minimally invasive hair restoration technique designed to create natural-looking results using your own hair follicles.

Send us images of your scalp (front, side, and back) with a brief description of your goals for a **free quote via email**.

💖 A BITTERSWEET GOODBYE

Celebrating Whitney, ARNP

It's a little bittersweet to share that Whitney, our Nurse Practitioner Injector, will be leaving Sound Plastic Surgery this November. We are excited for her new managerial role at ZoomCare!

We are so grateful for the time, care, and expertise Whitney has shared with our patients and our team. She has been such a wonderful part of SPS, and while we're sad to see her go, we're incredibly excited for her as she begins her next chapter. 💖

Before she goes, make sure to say goodbye and book your next appointment!

✨ October Microneedling Promo ✨

Skin Quality Is Everything - Great skin isn't just about preventing wrinkles.

It's about texture, tone, hydration, firmness, and overall skin health. And sometimes, the best aesthetic treatment isn't another syringe.

Microneedling can help improve the appearance of fine lines, uneven texture, and overall skin tone — leaving skin looking smoother and more refreshed.

✨ **\$100 OFF Microneedling w. PRP**

✨ **\$40 OFF standard Microneedling**

The goal? Healthy-looking skin that doesn't need to be hidden under makeup.

Your Fall Skin Reset

Summer sun, heat, and outdoor activities can leave skin feeling a little less than its best.

Fall is a great time to reassess your skincare routine and start targeting concerns such as:

- ☀ Sun damage
- ◆ Uneven tone
- ◆ Dullness
- ◆ Fine lines
- ◆ Texture
- ◆ Dehydration

Our team can help create a skincare and treatment plan based on your skin, your concerns, and your goals.

And a warm welcome to Dr. Sharma, Facial Plastic & Reconstructive Surgeon ✨

Moving forward, Dr. Sharma will be performing all Botox and Filler treatments at Sound Plastic Surgery.

If you're due for your next treatment or you've been thinking about trying Botox or Filler for the first time — now is a great time to get on Dr. Sharma's schedule. **We can't wait for you to meet her!**

Deep Neck Contouring with Dr. Sharma

Yes, we offer Deep Neck Contouring at Sound Plastic Surgery.

Looking for a sharper jawline and a more defined transition from your chin to your neck? **Dr. Sharma specializes in advanced facial and neck contouring techniques designed to address more than what you see on the surface.**

Unlike traditional neck rejuvenation procedures that primarily focus on the skin and superficial tissues, **deep neck contouring addresses the deeper structures beneath the platysma muscle** to help create a more defined jawline and crisp chin-to-neck angle.

The result? **A more sculpted, balanced profile with a natural-looking contour.**

Curious if you're a candidate?

Schedule a consultation with **Dr. Sharma** to learn whether deep neck contouring may be right for your anatomy and aesthetic goals.
